THE CHEETAH

The cheetah is the fastest animal on land. It can run 100 kilometers an hour. It is now rare and is one of the animals which is in danger of extinction.

The cheetah has a small head and ears, and long, powerful legs. It always hunts and chases its prey on open ground.

This is a different way of hunting from the other "big cats." They like to stay in and near trees to catch their prey. The cheetah is also different from other cats because it cannot draw in its claws.

My Football Experience

When I was in junior high school, I really loved football. Every Saturday afternoon I practiced in school field with my team and my coach. They were strong and smart players. My coach, Mr Haekal was a kind person. But, while he was coaching us, he was very discipline. He would grounded anyone who came late and not obeyed the team's rules.

With Mr Haekal, our team won many tournaments in many big cities. Our team named after our school, 67 Team (from SMP 67) and we had many fans too, you know. Ohh, that was so cool. Now, I still love football and have a team too. But, my parents warn me to pay attention more to my study, football just for hobby.
